Our story

This isn't a five-star hotel - it's an infinite-star encounter, where the northern lights and midnight sun replace artificial entertainment, offering a celestial spectacle beyond imagination.

We offer more than just a stay - we invite you on a journey back to the Viking era, where nature, adventure, and exploration shape the experience. Inspired by traditional Viking longhouses, our lodges blend wood, steel, and glass, creating a sanctuary that is both authentically Icelandic and truly unique.

Recognized as Iceland's most sought-after stay, our lodges have redefined luxury in the wilderness, earning the National Geographic Readers' Award for the world's most unique accommodation and gaining global recognition in over 180 publications.

Here, every sunrise is a masterpiece, and every night sky a gateway to the cosmos. Guests sleep beneath the northern lights, just as the Vikings once did - though now in unmatched comfort and privacy.

For those seeking a once-in-a-lifetime experience, Panorama Glass Lodge® is more than a place to stay - it's an invitation to embrace history, adventure, and the untamed beauty of Iceland.

The founders

Sabrina and Andreas Dedler, originally from Switzerland and Germany, are the visionary founders of Panorama Glass Lodge, a unique and luxurious accommodation concept in Iceland. Inspired by their love for nature and design, they created the first glass-roofed lodges in Iceland in 2017, allowing guests to experience the northern lights and midnight sun from the comfort of their beds.

Sabrina, CEO, leads marketing, customer support, and interior design, while Andreas, COO, oversees operations, maintenance, and finance. Their dedication to sustainability and guest experience has made the Panorama Glass Lodge a pioneer in luxury eco-tourism.
